About Us

KiwiRail's Role in Aotearoa, New Zealand

KiwiRail delivers sustainable and inclusive growth for our customers, our communities and our people.

For more than 150 years, rail in New Zealand has connected communities, delivered goods and people around the country and showcased our spectacular scenery to the world. Our purpose 'Stronger Connections, Better New Zealand,' speaks to connected people, networks, journeys, experiences, and ways of working that move KiwiRail, the transport sector and New Zealand forward.

Our Workplace

At KiwiRail our values define the behaviour we expect from everyone. We have a team of over 4500 people and every connection we make with each other, our union partners, our customers and all our stakeholders must be of the highest standard.

Health, safety and wellbeing is our number one priority. Good safety is good business

About the Role

Purpose of the role

KiwiRail and Auckland Transport are working with Waka Kotahi to ensure Auckland's rail network is up to the task. We are building a network that can support more frequent passenger services, faster journey times, and greater capacity for freight trains.

As a Procurement Specialist for Group Procurement, you'll play a key role in the Auckland Commercial Team. The role ensures we meet all governance requirements and follow government regulations as we perform category management and systems analytics functions. The person in this role will analyse complex data and business processes, create Power BI dashboards, write clear business documentation, and perform procurement functions with the Government Electronic Tendering System (GETS) for the end to end source to contract process. You'll work closely with the business, the procurement team, and internal governance stakeholders to execute procurement activity that keeps our rail system safe, efficient, and up-to-date.

Key Accountabilities

Within the area of responsibility, this role is required to perform the following functions:

- Category Support
 - Provide strategic and commercial advice to business stakeholders while championing best practice Procurement at KiwiRail.
 - Support the Procurement and Process Improvement Manager with developing category strategies and multi-year initiative plans.
 - Analyse and deliver category / spend insights to business stakeholders with a focus on total cost of ownership, cost modelling and other factors.
 - Provide recommendations action plans and change management for category initiatives
 - Drive improvements in data management to improve category management and spend insights.
 - Coordinate with business units to collate scope definition and business requirements for Sourcing.
- Sourcing Management
 - Comply with all Government Procurement Rules and KiwiRail Procurement policies and procedures.
 - Ensure all approvals are obtained in compliance with requisite policies.
 - Conduct sourcing activity (EOI, RFP etc.), evaluation of responses and facilitate moderation meetings.
 - Make Supplier recommendations to senior managers and appropriate delegated authority based on evaluation outcomes.
 - Negotiate with vendors to achieve the optimal commercial, TCO and risk outcomes.
 - Support with drafting commercial contracts or variations with appropriate KPIs and risk management clauses.
 - Collaboratively develop change management plans to ensure suppliers are setup for successful delivery.
 - Identify opportunities to improve sourcing process efficiency whilst ensuring compliance.
- Supplier relationship management
 - Support with categorisation and management of suppliers.
 - Develop and operationalise a relationship management plan for identified suppliers.
 - Lead and manage the supplier relationships with a view to grow overall relationship value.
 - Derive insights from supplier engagements and share outcomes with business units.
 - Raise invoice queries / discrepancies with suppliers and follow through to resolution.

- Risk management and sustainability
 - Identify Supplier risks are through the Procurement process and develop plans collaboratively with business stakeholders to mitigate supplier risk.
 - Proactive management of contract expiry and contract data.
 - Include sustainable procurement practices in all applicable Procurement activities.
- Procurement Processes and Systems
 - Perform business process modelling and process analysis reports
 - Develop power BI dashboards and Excel reports for business use
 - Develop Sharepoint Registers and simple databases for storing and analysing data
 - Assist in developing tools to support the Group Procurement team such as training plans, reporting, guidelines and procedures, and other items as relevant.
 - Analyse data using fact based and statistical methods for modelling, cleansing, and data quality improvement, and work with IT stakeholders to improve data quality
 - Provide cover for the Procurement and Process Improvement Manager as and when required.
 - Provide cover for wider activities within the Procurement Team as and when required
 - Ad hoc investigations and audit support as directed by the Procurement and Process Improvement Manager

Key challenges

- Managing the appropriate allocation of resources in a cost saving environment
- Managing and analysing complex and sensitive issues
- Facilitating the engagement and input of a wide range of stakeholders and managing expectations
